RE: Project Review Committee – Specialty / Subcontractor Position

I am writing to express my interest in applying for the vacancy on the Project Review Committee as a Specialty / Subcontractor representative.

My experience in the electrical trade for the past 40 years includes Electrical Trainee, Journeyman Electrician, Foreman, Washington State Electrical Administrator, Electrical Designer, Estimator & Project Manager. I have been licensed and or worked in several states including Alaska, Arizona, Hawaii, Idaho, and Washington.

On April 1st 1991, my brother and partner started M&M Harrison Electric Co. For the past 31 years I have served as Co-Owner, President, and operator of M&M Harrison Electric Co. I have been directly involved in many design build, design assist, state and privet projects in eastern Washington and northern Idaho. Most recently we have completed several design build, design assist projects on the WSU Pullman campus including Rec 5 Plant Science Building, Elson Floyd Cultural Center and the Chinook building. I currently am under contract on several Design Build projects at WSU Pullman Campus and have completed successfully, many other design build projects on campus and in the area. The size of these projects ranges from \$5K to \$90M.

The types of construction I have been directly involved include residential, commercial, and industrial. The types of facilities include Medical Office and Procedural facilities, Hospitals and Emergency Care facilities, Dormitories, Sporting facilities and Fields, Hydroelectric facilities, Chemical Storage facilities, Science Laboratory facilities, Food Storage facilities, Cultural Centers, Church's, Grocery Outlets, Retail Outlets, Fueling stations, Greenhouses and Growth facilities, and many other types of structures.

I believe the knowledge I have gained through the years will be beneficial to the committee in assisting to ensure the successful completion of future projects.

Thank you for your consideration.

Sincerely,
