Seattle, Washington 98121

**Re: Public Body Design Build Re-Certification - Approval**

Dear Ms. Zahn:

The Capital Projects Advisory Review Board's Project Review Committee has determined that Port of Seattle has met the criteria established in RCW 39.10 for public body Design Build (DB) recertification. As of September 22, 2016, the Port of Seattle is authorized to utilize DB contracting procedures.

The Port of Seattle's certification will extend through January 23, 2020. A re-certification application will need to be submitted to the Project Review Committee at least three months prior to the above noted expiration date.

Under the terms of the law you will be required to submit project data to CPARB during any DB project undertaken with this certification. Please identify your point of contact for supplying required project data information to CPARB staff person, Talia Baker, at [Talia.Baker@des.wa.gov](mailto:Talia.Baker@des.wa.gov).

Congratulations on the approval of your application.

Please contact Nancy Deakins (360) 407-9333 if you have any questions regarding this process.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Palewicz".

John Palewicz, Chair  
Project Review Committee
