**Re: PRC Application for General Contractor Representative**

Dear Members of the Washington State Project Review Committee,

I am writing to express my interest in the General Contractor Representative position in the Washington State Project Review Committee. I have been involved with commercial construction for over 30 years. Throughout my career in the construction industry, I have had the privilege of working on a diverse range of projects with a variety of delivery methods including traditional design-bid-build, design-build, GC/CM, and negotiated GMP (RCW 39.10). My responsibilities have included operations management, overseeing project execution, managing budgets, coordinating with various stakeholders, and ensuring compliance with safety and quality standards. Moreover, my experience in fostering collaboration between different parties involved in a project has been instrumental in achieving successful project outcomes. These experiences have provided me with a comprehensive understanding of the intricacies of different project delivery approaches and the associated benefits and challenges with each.

Thank you for considering my application. I look forward to serving as a General Contractor Representative for the PRC and contributing to the continued advancement of construction project delivery methods in our state.

Sincerely,

**Bret Miche**

Operations Manager, Graham Construction
