Proposed rules for Managing State Print Operations

The Department of Enterprise Services has developed proposed rule language for state agencies to use in managing their printing operations. Print operations include agency-based printing and print jobs that require the services of a print shop. The rules will allow agencies to implement managed print strategies to track, manage, and reduce agency-based printing.

Enterprise Services invites you to a public hearing on the proposed rule language and guidelines:

Date: September 15, 2014

Time: 2:30 p.m.

Location: 1500 Jefferson Street, Conference Room 2208, Olympia, WA 98504

Please see [Managing State Print Operations](#) on the Enterprise Services [rule making page](#) for more information.

For more information, please contact [Jack Zeigler](#), Policy and Rules Manager, (360) 407-9209.
