WASHINGTON STATE PATROL

General Administration Building • PO Box 42600 • Olympia, WA 98504-2600 • (360) 596-4000 • www.wsp.wa.gov

December 1, 2016

Ms. Donna Albert, Energy Project Manager
Department of Enterprise Services, Energy Program
PO Box 41012
Olympia WA 98501

Dear Ms. Albert:

Please find the enclosed reports from the Washington State Patrol (WSP) regarding the Governor's Executive Order 12-06, Achieving Energy Efficiency in State Buildings.

The WSP has 55 facilities identified in the Environmental Protection Agency's Portfolio Manager that meet the definition of a Reporting Public Facility (RPF). Of these facilities, 15 are 10,000 square feet or greater residing in a campus style setting. These include district headquarters, crime labs, and training academies.

Over the last six years, preliminary audits have been completed to all required buildings/campuses. The WSP has also conducted audits at facilities that fall far below the defined thresholds. These sites include weigh stations and detachment offices.

In 2016, energy reduction measures continue to be a priority to the agency. Recently, WSP completed HVAC improvement projects at our Marysville, South King County, Moses Lake, and Yakima offices. To date, 86 buildings have received lighting retrofits. This includes every facility that underwent a preliminary audit.

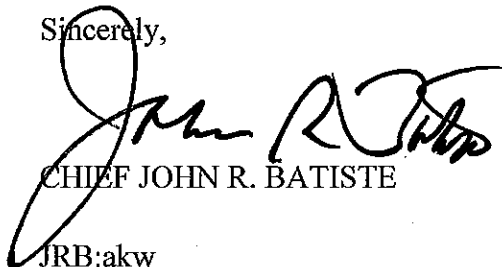

The WSP is working with the Washington State University's Extension Energy Program to update the Portfolio Manager. Currently, utility companies upload this information automatically for 35 of WSP's facilities. The agency is committed to energy efficiency and ensuring our resources are used wisely.

Ms. Donna Albert

Captain Shane M. Nelson, Property Management Division

Executive Order 12-06 Briefing Paper

- The following briefing is intended to provide a progress report regarding the requirements of EO 12-06 (Achieving Energy Efficiency in State Buildings).
- The Property Management Division (PMD) has completed benchmarking for all buildings/campuses greater than 10,000 square feet. Preliminary energy audits have been completed on all of our 55 identified facilities.
- WSP is reviewing the feasibility of installing utility meters as part of future capital project planning and include where beneficial and cost effective. The initial review indicates that lighting replacements and some heating, ventilation and air conditioning (HVAC) replacements will be the most cost effective conservation measures for WSP buildings.
- At this time, WSP anticipates meeting the 20 percent reduction target by 2020. PMD has been working with DES and Ameresco/Quantum (DES approved energy contractor) since 2005.
- WSP has successfully conducted and implemented HVAC renovation and energy conservation measures to the following locations:
 - Marysville
 - South King County
 - Moses Lake
 - Yakima
- Past energy audits have been conducted and resulted in the replacement of lighting, HVAC, and where reasonable, the replacement of roofing with light color roofing products versus dark to reduce heat loads on the facility.
- We are currently working with the Washington State University Extension Energy program to update the Environmental Protection Agency Portfolio Manager. All energy data is required to be entered into this database. We currently have 35 facilities where data is being loaded from the utility companies on a monthly basis on our behalf. The remaining 20 facilities are being loaded manually. This is due to the fact that these utility companies do not have the capability to load the data into the system.

Executive Order 12-06 Report

ACHIEVING ENERGY EFFICIENCY IN STATE BUILDINGS

December 2016

| | |
|--------------------------|--|
| Agency Name: | Washington State Patrol |
| Agency Point of Contact: | Shane Nelson |
| Point of Contact Title: | Captain |
| Telephone Number: | (360) 704-5401 |
| E-mail Address: | Shane.nelson@wsp.wa.gov |

Describe benchmarking, metering, audits, and energy retrofits completed by the agency in 2012 through 2016 to meet the requirements of EO 12-06. What percentage of agency owned square footage has been audited (all systems) and all life-cycle cost effective measures installed, since 2012?

The Washington State Patrol (WSP) has 55 buildings identified in the Environmental Protections Agency's Portfolio Manager that meet the division of a Reporting Public Facility (RPF). Of these 55, a large portion resides on campus settings such as district headquarters, crime labs, or training academies.

Since 2012, WSP completed preliminary audits to all required buildings/campuses, benchmarking for all buildings/ campuses greater than 10,000 square feet. HVAC renovations, upgrades, and replacements have been made to the following locations: Spokane, Marysville, Tacoma and Wenatchee District offices, Chehalis, Hoquiam, Kelso and Okanogan, Kennewick Detachment offices, and the Kennewick Crime Lab. Also, lighting retrofits and upgrades were completed at 86 buildings.

Describe benchmarking, metering, audits, and energy retrofits that the agency plans to implement in the next 5 years to meet the requirements of EO 12-06. What percentage of agency owned square footage will be audited (all systems) and all life-cycle cost effective measured installed, from 2012 – 2022?

Benchmarking has been completed on all WSP facilities. Ameresco audited a number of our agency's weigh station facilities. WSP is working on how to proceed with upgrading these facilities.

Executive Order 12-06 Reporting Form

Describe how the agency used Energy Star Portfolio Manager benchmarking in lease negotiations for new or renewed leases in 2012 – 2016, and how benchmarking will be used in future leased negotiations:

Department of Enterprise Services (DES) handles all major leases for the WSP and delegates a portion to the agency's Budget and Fiscal Services (BFS). Our discussion with DES includes negotiating two leases and the energy efficiencies. WSP is currently working on moving to the new 1063 building and moving away from less energy efficient spaces.

Describe actions that will be taken in 2017 to save energy through operational changes and continuous monitoring using Portfolio Manager. Describe how you will engage occupants and staff to reduce energy use in the next 5 years:

We will continue to monitor changes in facility performance in facilities where improvements have been made. The Facilities Section will continue to monitor energy usage within Portfolio Manager. They will educate building occupants on their energy data and report significant data changes.

F.2 Benchmarking Status of Buildings

KEY:
 Green = Building is in Portfolio Manager, energy data is current in 2015
 Yellow = Building is in Portfolio Manager, but energy data is not current in 2015
 Red = Building is not in Portfolio Manager

| BUILDINGS OVER 10,000 SF (2015 FIS) | | | | | | | | | | | 2015 DATA IN PORTFOLIO MANAGER | | | | | | | | | | | | | | |

F.2 Benchmarking Status of Buildings

KEY:
 Green = Building is in Portfolio Manager, energy data is current in 2015
 Yellow = Building is in Portfolio Manager, but energy data is not current in 2015
 Red = Building is not in Portfolio Manager

| BUILDINGS OVER 10,000 SF (2015 FIS) | | | | | | | | | 2015 DATA IN PORTFOLIO MANAGER | | | | No Preliminary Audit Required | Comprehensive Preliminary Audit Requested | Comprehensive Preliminary Audit Completed | No Cost Effective Energy Conservation Measures Identified | Investment Grade Audit Initiated | Investment Grade Audit Completed | No Cost Effective Projects Identified | Cost Effective Projects Initiated | All Cost Effective Projects Completed | All Required Actions Completed and Current |
