

# DES FLEET OPERATIONS QUARTERLY ATO MEETING

08 04 2022

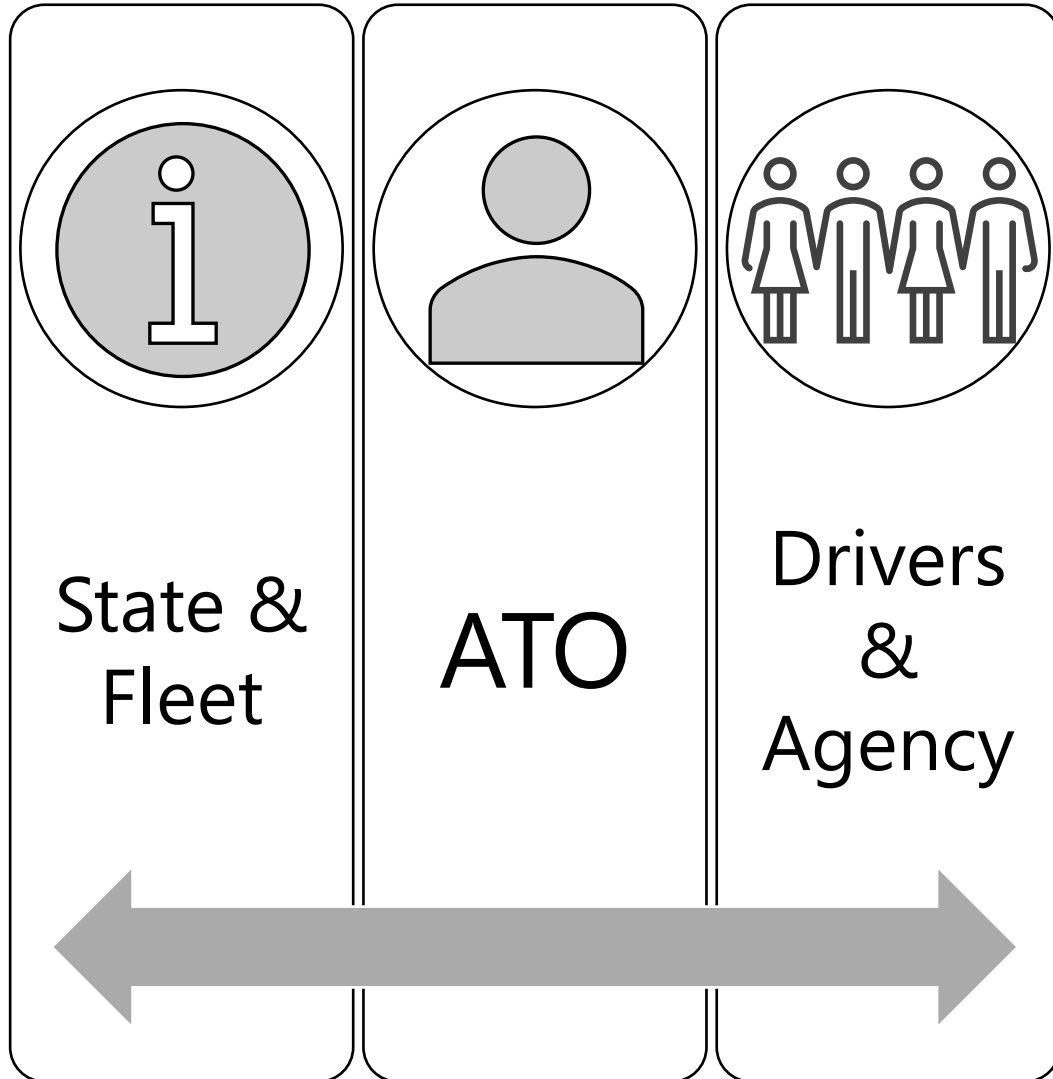

# MEETING AGENDA

- Updates & Announcements
- Dispatch
- Shop Operations
- ---- Break ----
- Guest Speaker - SEEP
- CARS Team
- Closing Remarks & Questions

# UPDATES & ANNOUNCEMENTS

- **Courtney Speer**
  - Program Manager – Fleet Operations
- **Cyndi Beveridge**
  - Assistant Program Manager – Fleet Operations
- **David Bagnall**
  - Management Analyst – Fleet Operations

# THE ATO IS THE CONNECTION

## Share the Information

- Fleet receives the information for this meeting from agency, government and industry
- Fleet shares this information to you the Agency Transportation Officers (ATOs)
- Please share this information with your agency and your operators
- You are the only connection some people will have to this information, so please share

# PERSONNEL CHANGES TO FLEET OPERATIONS

**Joey Rivera**  
Program Coordinator  
Fleet Operations – CARS Team

**Andrew Cannard**  
Customer Service Specialist 3  
Fleet Operations – CARS Team

# MORE PERSONNEL CHANGES TO FLEET OPERATIONS

**Gordan Mathis**  
Transportation Helper  
Fleet Operations – CARS Team

**Soren Sheff**  
Transportation Helper  
Fleet Operations – CARS Team

# NEW PERSONNEL - EVSE IMPLEMENTATION TEAM

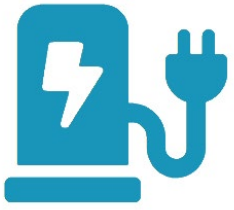

**Jonathan Lucas**  
EVSE Implementation  
Administrator  
EVSE Implementation Team

**Jason Bippert**  
MA5  
EVSE Implementation Team

**Coming Soon**  
MA5  
EVSE Implementation Team

# WHAT'S NEXT FOR EVS AND EVSE

Enterprise Services was recently allotted \$2.9M in supplemental budget to put towards networked electric vehicle supply equipment installation projects at state owned office locations!

- Thank you for your project proposals! We received 32 project proposals

Current focus:

- 11 projects were selected to move forward. We are currently working with partner agencies with approved projects to facilitate MOUs for these projects
- Soliciting for an outside consultant to assist with developing a preliminary report that will go to the legislature which will cover preparing a zero-emission vehicle implementation strategy for DES managed vehicle fleets impacted by the targets in EO 21-04

# CYNDI BEVERIDGE

- *Customer Satisfaction Journey progress*

# CUSTOMER SATISFACTION JOURNEY

## **In Development:**

- Vehicle Lease Agreement (IAA)
- Online Shop Operations Scheduling for Fones Road location
- Recorded operator training options
- Daily rental trip body damage tracking

## **Completed:**

- General wear/tear guidelines / ATO responsibilities
- ATO Dashboard
- Enhanced Quarterly Utilization Reports
- Monthly Fleet Tips communication

# DAVID BAGNALL

- *Fuel Tier Rate Adjustments*
- *Good to Go*
- *ATO Dashboard*
- *Utilization reporting*

# FUEL TIER RATE ADJUSTMENTS

**August 1, 2022**

- A per mile rate adjustment was implemented to account for decreasing fuel costs
- When the price of a gallon of fuel crosses a 25-cent threshold, it triggers a rate adjustment
- How are per mile rates calculated?
  - There are two components to the per mile rate
  - 1. Fuel (Price per Gallon / MPG) = Fuel Cost per mile
  - 2. Maintenance (Total costs / Total Miles) = Maintenance Cost per mile

# GOOD TO GO UPDATE

- Fleet Operations continues to enhance our Good To Go program to better serve our customers
- All DES Fleet vehicles are registered with Good To Go pay by plate. No passes are needed unless agency desires for vehicles with high toll use
- ATOs can request Good To Go Passes at no expense to your agency

For information about this program, please contact [David.Bagnall@des.wa.gov](mailto:David.Bagnall@des.wa.gov)

# ATO DASHBOARD UPDATE

- The ATO Dashboard is now in production!
- The most recent addition includes EV measures and an EV strategy map
- Suggestions to improve the dashboard are welcome! Please direct all feedback to [David.Bagnall@des.wa.gov](mailto:David.Bagnall@des.wa.gov)

# UTILIZATION REPORTING STRATEGIES

## DES Fleet Operations Q1 Utilization Report

Instructions: For vehicles that are not meeting utilization criteria, consider a vehicle swap/reassignment, turning in a vehicle(s) and using pooled or shared vehicles.

Strategy: Select a corrective strategy for each underutilized vehicle using column (AN) in order to meet utilization requirements. Use column (AO) to add notes if needed.

Equipment	EmpID	RevenueAccount	Coordinator	Usage	DaysUse	RequiredDay	PercentDay	TotalMiles	Strategy
8587M	CC	E095000	futterk@sao.w	Underutilized	Did not meet mileage criteria	0	0	100%	35
8951M	CC	E095000	futterk@sao.w	Underutilized	Did not meet mileage criteria	0	0	100%	1,079
0132M	CC	E095000	futterk@sao.w	Underutilized	Did not meet mileage criteria	0	0	100%	45

## UTILIZATION STRATEGIES

S – SWAP WITH HIGH USE VEHICLE  
E – EXTEND (3 MONTH EXTENSION)

charger port

# ELECTRIC SEDAN VS. GAS HYBRID SEDAN

A one day daily rental round trip of 100 miles costs you

In an electric Sedan\*

**\$46** Trip  
Total

\* \$39 Daily Rate @ 7 cents per mile

In a gas-hybrid Sedan\*

**\$48** Trip  
Total

\* \$30 Daily Rate @ 18 cents per mile

# ELECTRIC VEHICLE CHARGING

**Each vehicle that is leased from DES is provided 3 electric charge RFID cards. EVgo, ChargePoint, and GreenLots (now Shellrecharge).**

- All GreenLots RFID cards WILL continue to work at all Shellrecharge stations. As we issue new RFID cards to new vehicles or replacements you will see the new Shellrecharge cards.
- [www.plugshare.com](http://www.plugshare.com) is the best website we have found to search for charging stations while you are out and about.
- If you are unable to find a charge station that works with any of the 3 RFID cards we supply, you CAN charge at a different station and get reimbursed. Just like you would if you had to pay for fuel out of your own pocket.
- A level 3 Fast Charger will typically get you about 90-100 miles of charge in about 30 minutes *-just enough time to grab a coffee and a snack!*
- Please reach out to us if you have questions about the plugshare website or RFID cards. We'd be happy to help!

# FUELING YOUR VEHICLE

**During June 2022, we saw our highest number of daily trip vehicles not refueled before returning.**

**If the tank is at  $\frac{3}{4}$  of a tank or less, to please refuel as a courtesy to the next driver.**

- 50 Drivers didn't refuel in June 2022
- Each one of those reservations was charged an extra \$20- which is added to the reservation total for your agency
- We are unable to tell if its because they didn't know how to use the fuel card, just forgot, or chose not to refuel before returning
- We hope that by sharing this information with you, our ATO's you can remind your operators to refuel vehicles before returning.

*Note - if they choose to drive an electric vehicle, there is no charge for not refueling. 😊*

# DAMAGE STICKERS PILOT

**DES Fleet Operations started a pilot using damage stickers in our trip fleet**

- Indicates previous damage
- Stickers are recorded and tracked
- Identifies old versus new damage
  - **UPDATE-** 80% of vehicle inspections have been completed on all daily rental vehicles

# DAILY TRIP RATE CONSOLIDATION

**New simplified Rental  
Rates are here!**

- Reduce rate classes from 26 to 12
- Created more descriptive rate classes such as ESEDAN vs EALT
- Includes new electric vehicle rate classes
- Less confusion for you when reserving a vehicle

# VEHICLE MAINTENANCE

**BRYAN BAZARD - VEHICLE MAINTENANCE / ALTERNATE  
FUEL TECH MANAGER**

[mpmaint@des.wa.gov](mailto:mpmaint@des.wa.gov)

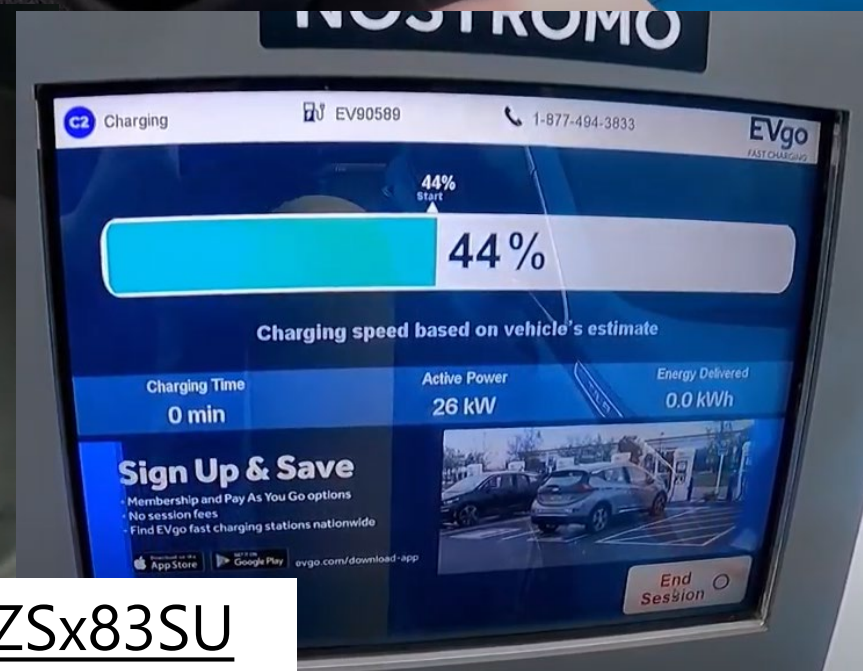

800-542-6840

[des.wa.gov](https://des.wa.gov)

# HOW TO CHARGE AN ELECTRIC CAR ON EVGO

<https://www.youtube.com/watch?v=7KktZSx83SU>

# DES FLEET SERVICE DEPARTMENT

Located on Fones Rd in Olympia  
Call us to make an appointment!

Monday-Friday  
7:30am-4:30pm  
(360) 664-9200

- Full-service repairs/maintenance
- Service loaners and hoteling stations available!

# MAINTENANCE NOTIFICATIONS

- Sent to assigned Operator
- Maintenance is based on miles driven
- If the vehicle has not had maintenance performed in the 12 months, a reminder will automatically be sent. This can be ignored if the maintenance mileage criteria below has not been met

## **Preventive Maintenance Criteria**

- PM-A: 5,000 miles – basic oil change (7,500 miles on some hybrids)
- PM-B: 15,000 miles – PM-A plus tire rotation, tread check, brake inspection, wipers, cabin air filter
- PM-C: 30,000 miles – PM-B plus additional maintenance as required (tune-up, air filter, transmission service, etc.)

# VEHICLE ACCIDENT MANAGEMENT

- The accident management contract is currently out for bid
- Current vendor is CEI
- Until bidding process is complete, CEI will continue to be used and accident reporting process will remain the same

# VEHICLE MAINTENANCE AND REPAIR CONTRACT

- DES Contracts and Procurement section is working on creating a solicitation for a vehicle maintenance and repair master contract for statewide use.
- The list will be the authorized vendors to have work performed on state vehicles.
- Fleet Operations is working to minimize the impact on drivers and will keep you updated.

# VEHICLE WINTERIZATION WARNING

- Our next ATO meeting will not be until November which is late to reach out to your drivers and have time to order winterization equipment.
- Set a reminder in October to notify your drivers to check for -
  - window scrapers
  - chains (if the vehicle will accept them)
  - blankets
  - etc.

# REPAIR TAKING LONGER

**Please be patient with us  
with delays due to:**

- Parts
- Staffing
- Market condition

# GUEST SPEAKER: STATE EFFICIENCY AND ENVIRONMENTAL PERFORMANCE (SEEP)

*Hanna Waterstrat*

- *SEEP Assistant Director*

*Ian Kinder-Pyle*

- *SEEP Analyst*

# STATE EFFICIENCY AND ENVIRONMENTAL PERFORMANCE (SEEP)

## November 2021 Governor Inslee signed EO 21-04

- Sets fleet electrification targets for all state executive and small-cabinet agencies
- Directs SEEP and DES to oversee fleet electrification efforts
- For light duty:
  - 40% of fleets are BEVs by 2025
  - 75% of fleets are BEVs by 2030
  - 100% of fleets are BEVs by 2035

### STATE EFFICIENCY AND ENVIRONMENTAL PERFORMANCE

## Vehicle Purchase Exemption Criteria

This document lists general exemption criteria that may prohibit agencies from using a battery electric vehicle (BEV). The vehicle purchase exemption criteria in this document apply to small and executive cabinet agencies responsible for implementing Executive Order 21-04 (Zero Emission Vehicles). Purchases of non-BEV vehicles will be considered on a case-by case basis.

Before completing the DES [Passenger Vehicle Request Form](#), **agencies must seek approval** for any non-BEV purchases from the State Efficiency and Environmental Performance Office (SEEP) by emailing [hanna.waterstrat@commerce.wa.gov](mailto:hanna.waterstrat@commerce.wa.gov) with the following:

- A description of the desired vehicle type (i.e. sedan, SUV, truck, van)
- The criteria for exemption (from the list below), and
- A detailed description of how the desired vehicle type meets the selected exemption criteria, based on the business case and planned utilization of the vehicle.
- If the planned purchase is a replacement, please also provide details about the vehicle being replaced.

SEEP and the Department of Enterprise Services (DES) will review submissions and SEEP will respond within 10 business days.

- Executive Order 21-04 gives SEEP the authority to grant or deny exemption requests.

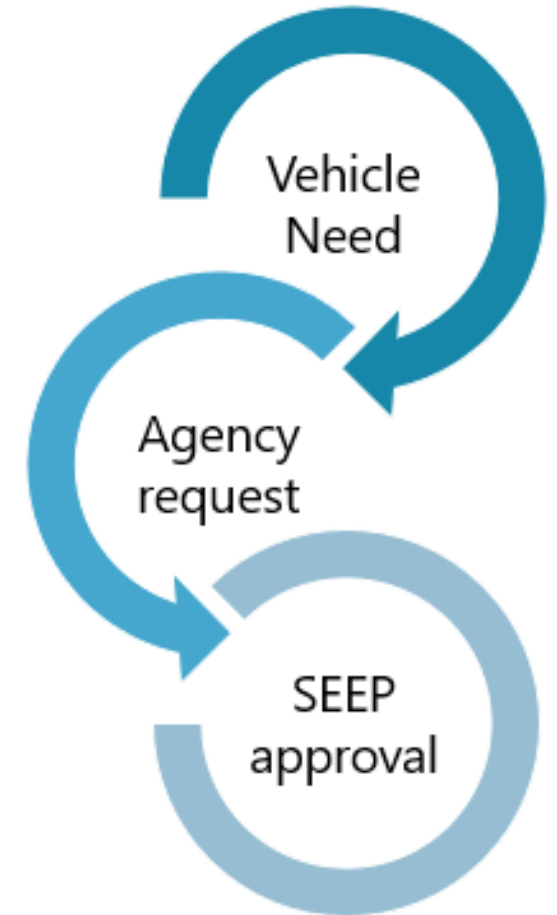

# STATE EFFICIENCY AND ENVIRONMENTAL PERFORMANCE (SEEP) - SUCCESSES

- Successes so far: Great teamwork with SEEP and DES
- Established exemption process and criteria
- Support agency implementation:
  - SEEP EV working group
  - Change management, technical assistance, tools, and resources (i.e. FAQ, site planning, dashboards/strategy map)
- Selected projects for \$2.6M in funding to install EVSE at state owned facilities
- Hiring staff to lead implementation
- DES expanding procurement options outside of normal statewide contracts, working towards broader and more consistent vehicle availability

# SEEP EXEMPTION PROCESS

## **New Streamlined Non-BEV Exemption Process**

- 1) Agency rep determines agency need for new or replacement vehicle
- 2) Determine ICE vs. BEV
- 3) Accesses SEEP exemption form if agency believes they need an ICE vehicle
- 4) Selects exemption criteria, provides documentation
- 5) Agency approval (if applicable)
- 6) SEEP approval
- 7) Work with DES to complete purchase

# HEADS UP! EMAILING GOING TO AGENCIES TOMORROW 8/5

In preparation for the 2023 Legislative Session and the 23-25 biennial budget, the SEEP Budget and Finance Workgroup will be emailing agencies starting tomorrow (8/5) to see what additional resources agencies might need to support their work efforts associated with EO 21-04.

The SEEP Budget and Finance Workgroup will compile this information and submit a consolidated proposal to be considered for the 23-25 biennial budget.

- If you have any questions, please contact Hanna Waterstrat or Ashley Howard.

# NEW SEEP EXEMPTION WEB FORM

New web form for exemption requests –

<https://www.commerce.wa.gov/growing-the-economy/energy/state-efficiency-and-environmental-performance-seep-archive/ev-fleet-electrification/>

Serving Communities ▾ Building Infrastructure ▾ Growing the Economy ▾ Promoting Washington ▾ Q

## Fleet Electrification

State Efficiency and Environmental Performance (SEEP)

State fleet vehicles are a major contributor to greenhouse gas (GHG) emissions resulting from state operations. To meet GHG limits established in RCW 70A.45.050, state agencies will need to transition fleet vehicle purchases to electric options.

The SEEP Office is responsible for implementing Executive Order 21-04 (Zero Emission Vehicles) in partnership with the Department of Enterprise Services (DES). To rapidly transition state fleets to battery electric vehicles while maintaining established vehicle purchase exemption criteria, leads a comprehensive planning and implementation strategy.

# SEEP PROCESS QUESTIONS

Any questions?

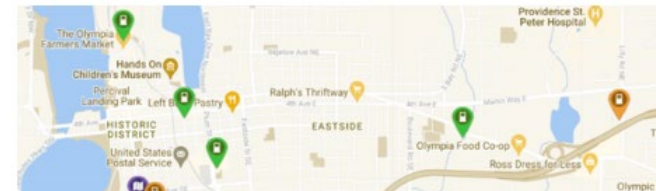

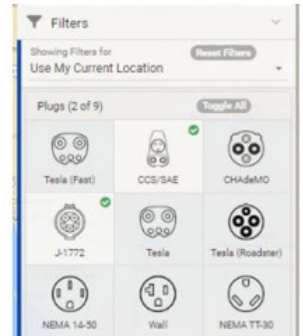

Plugshare best practices –  
[https://www.commerce.wa.gov/wp-content/uploads/2022/07/SEEP-Guidance\\_Best-Practices-for-Using-Plugshare.pdf](https://www.commerce.wa.gov/wp-content/uploads/2022/07/SEEP-Guidance_Best-Practices-for-Using-Plugshare.pdf)

## STATE EFFICIENCY AND ENVIRONMENTAL PERFORMANCE

### Plugshare Best Practices

Best Practices for Using Plugshare to look into nearby Charging Infrastructure

1. Go to <https://www.plugshare.com/>
2. Ensure you are selecting the correct vehicle plug options in your search. For example, CCS and J-1772 are the industry standard for L2 and L3 chargers. If you have a Tesla vehicle, you will want to ensure you are selecting "Tesla." Also, if you have a Nissan, you will want to select "CHaDeMo." **Typically, unless you have a Tesla or Nissan, it is best to select CCS and J-1772.**
3. Ensure you are selecting the EV Charging networks you have access to. For example, DES EV vehicles have charging RFID cards to ChargePoint, EVgo, and Shell Recharge (formerly Greenlots). Different EV networks may require special RFID cards or membership. If you have a DES managed vehicle, be sure to select these three locations.
4. Using the filters when you search an area, the image will show you where the nearest level 2 chargers (green identification markers) and level 3 chargers are (orange identification markers).

## KNOWLEDGE CHECK

How well do you think  
you know Battery Electric  
Vehicles?

*Select your answers in the  
following polls*

# EV KNOWLEDGE CHECK # 1

When was the first BEV made in the USA?

1. 1890
2. 1900
3. 1910

# EV KNOWLEDGE CHECK

When was the first BEV made in the USA?

1. 1890

2. 1900

3. 1910

# EV KNOWLEDGE CHECK # 2

Roughly what percentage of vehicles on the road in 1900 were BEV?

1. 10%
2. 35%
3. 50%

# EV KNOWLEDGE CHECK # 2 - ANSWER

Roughly what percentage of vehicles on the road in 1900 were BEV?

1. 10%

2. 35%

3. 50%

# EV KNOWLEDGE CHECK # 3

Who secretly worked with Edison to create a better EV?

1. Walter Chrysler (Chrysler)
2. Samuel Wilson (Cadillac)
3. Henry Ford (Ford)

# EV KNOWLEDGE CHECK # 3 - ANSWER

Who secretly worked with Edison to create a better EV?

1. Walter Chrysler (Chrysler)
2. Samuel Wilson (Cadillac)
3. Henry Ford (Ford)

# EV KNOWLEDGE CHECK # 4

What was the first full run production vehicle by a major manufacturer?

1. General Motors EV1
2. Enfield 8000
3. AM General Jeep DJ-5E

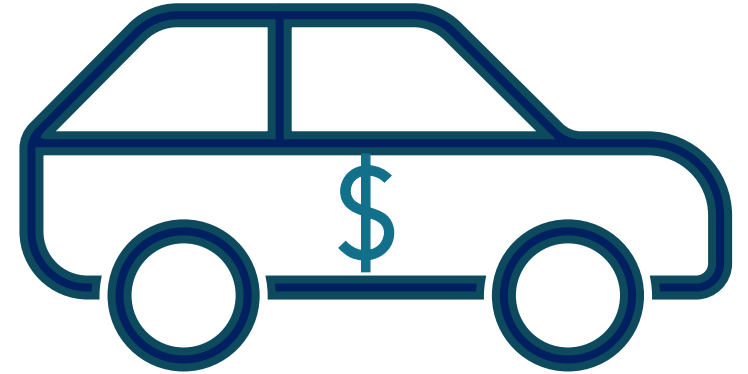

# EV KNOWLEDGE CHECK # 4 - ANSWER

What was the first full run production vehicle by a major manufacturer?

1. General Motors EV1
2. Detroit Electric
3. AM General Jeep DJ-5E

# VEHICLE PURCHASING

When requesting vehicle there are a few main steps

- SEEP is the vehicle BEV or get a SEEP exemption\*
  - *Not all agencies or vehicles are required to take this step*
- DES Passenger Vehicle Request Form (if required)
- CARS Team contact – Approval is sent to CARS Team, who contacts you and your agency
  - *Approval form is reviewed, extras listed, and options identified*
- Acquiring vehicle – used or new
- Customer Agency receives vehicle

# IMPACTS ON VEHICLE REPLACEMENT

**Currently we are seeing unprecedented market conditions in vehicle procurement including, but not limited to:**

- Short ordering windows
- Manufacturing delays due to chip shortages and other commodity shortages
- Short production timelines

2022 Vehicle Replacement Status

	Total	Ordered / Received	
2022.2	363	218	60.1%
2022.3	307	62	20.2%
2022.C	30	16	53.3%

**Let us help you! To minimize these impacts, our ask to all agencies:**

- Please ensure your agency is timely about responding to vehicle replacement notifications
  - *Any delay could have a large impact on vehicle replacement timelines*
- Contact your CARS representative, they can help you create a proactive game plan for your agency's vehicle replacements and answer any questions

# VEHICLE APPROVAL TIMELINE

# PAT AGA

- *Current EV purchasing*
- *AWD electric vehicles coming to market*
- *Monthly Mileage Reporting Importance*

# CURRENT EV PURCHASING

# ADDITIONAL AWD ELECTRIC VEHICLES OPTIONS

2023 Hyundai Ioniq 5

2023 VW ID.4

2023 Rivian R1T

2023 Kia EV6

2023 Nissan Ariya

# MONTHLY MILEAGE REPORTING

## **99% of vehicle mileage reported by the end of the month is our Goal**

- July 2022 only 88% of our fleet reported their monthly mileage
  - This means over 600 vehicles did not report mileage of the 5,050 vehicles in the state's fleet!
- Late reporting of mileage affects many things including vehicle maintenance, vehicle repair decisions and vehicle replacement planning

## **Upcoming notices:**

- On July 18th final notices were sent out for over 22 vehicles that have not reported monthly mileage for over 180 days
- We will be sending out Final notices soon for vehicles that have not reported monthly mileage for over 90 days

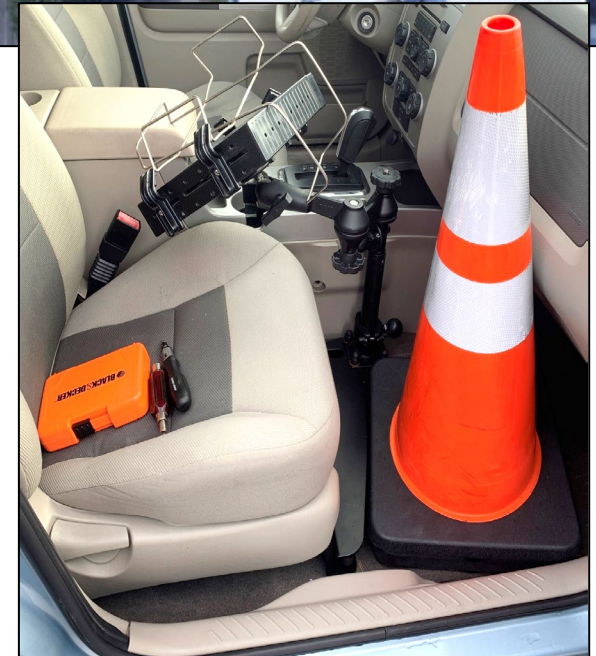

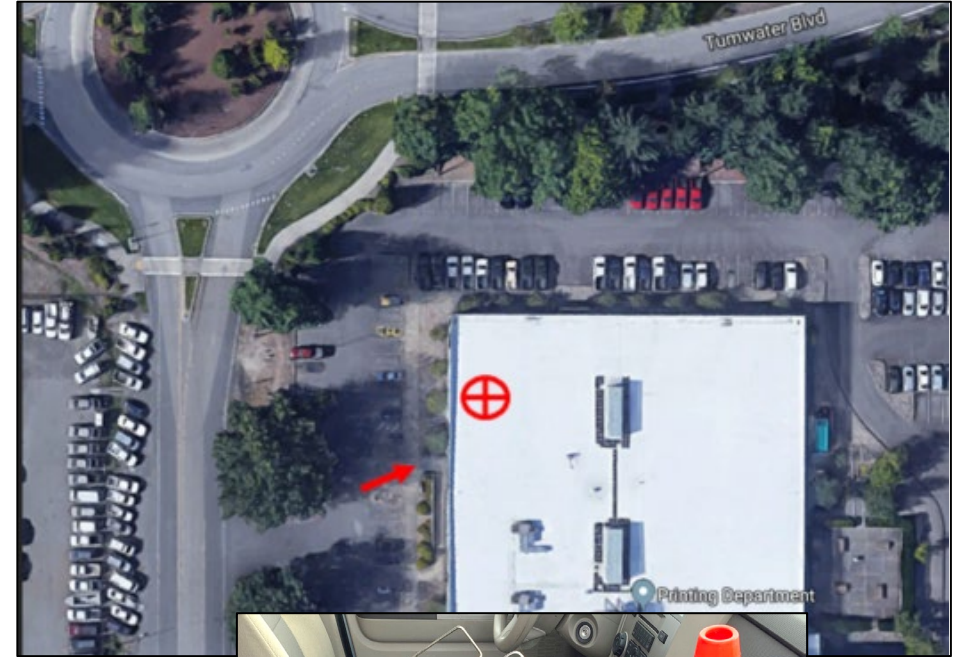

# NADINE CALDERON-DIXON

- *Vehicle returns*
- *Tip of the month*
- *Rivian Demo*
- *Trainings – EV*
- *Conferences*
- *Trainings - Operator*

# VEHICLE TURN IN PROCESS

- Turn in instructions are sent out to ATO/Vehicle Coordinator via email
- Set appointment with transportation office in Tumwater for the exchange
- Remove personal and Agency items from the vehicle
  - Fire extinguishers
  - Safety equipment
  - Agency owned property

# TIP OF THE MONTH

- Sent out monthly
- Goes to ATOs and those requesting
- Email [Mpmail@des.wa.gov](mailto:Mpmail@des.wa.gov) to be added to distribution list
- Topic Ideas?? Submit them in the survey
- Please share Tip of the Month with anyone who could benefit from it

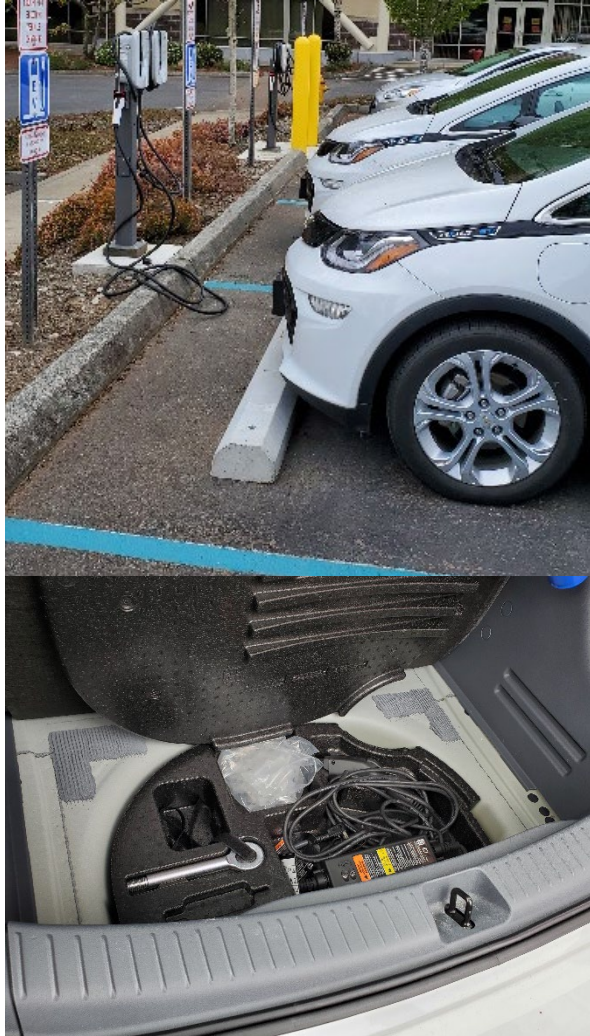

# BEV / CHARGING STATION TRAININGS

*Email us at [mpmail@des.wa.gov](mailto:mpmail@des.wa.gov) to schedule training for your agency*

# BEV DEMO – RIVIAN PICKUP TRUCK

- Rivian R1T pickup demo and drive
  - August 9 1pm – 3pm
  - At Fones Rd in Olympia
  - Ford Mustang Mach-E also available
  - VW – Demo coming

# UPCOMING EV EVENTS/CONFERENCES

## **Green Transportation Summit & Expo (GTSE)**

**August 16-18, 2022 | Tacoma, WA**

- <https://www.gtsummitexpo.com/registration>
- West Coast's premier fleet modernization and sustainable transportation event

## **2022 Spokane/Liberty Lake National Drive Electric Event      September 24, 2022 – Liberty Lake, WA**

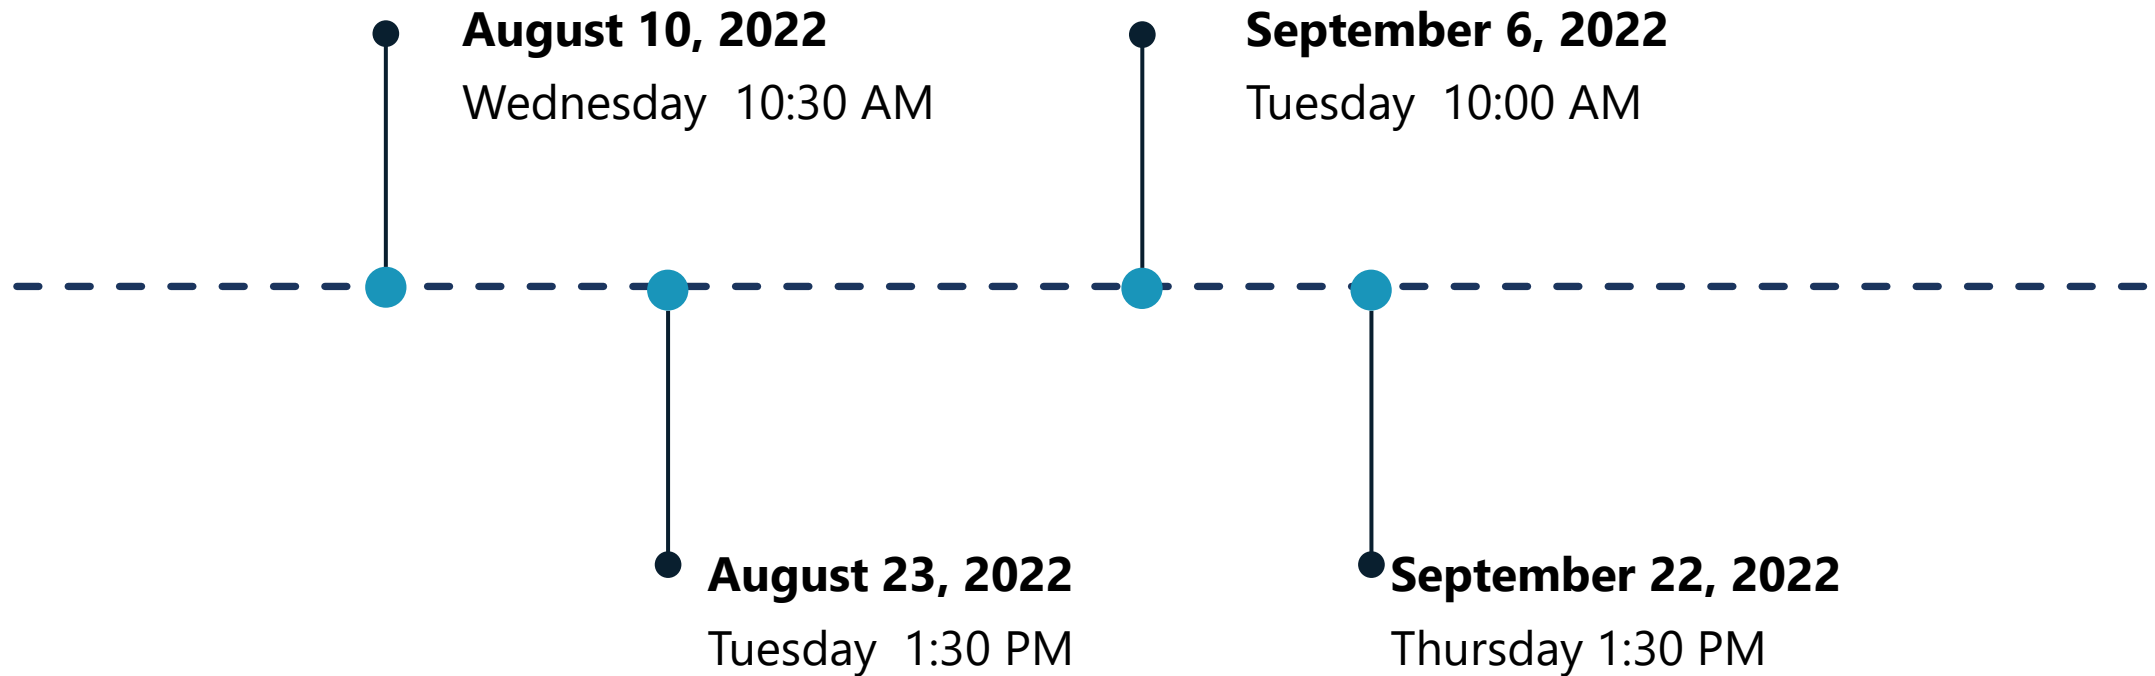

- <https://driveelectricweek.org/event?eventid=3373>
- Whether you are interested in power and performance, efficiency, fun, functionality, or style, electric vehicles will exceed your expectations! So, if you have questions and want to see all the new electric vehicles which are hitting the market, come on down and chat with EV owners.

## **Power Talks: Learn All About Electric Vehicles August 11, 12 PM – Virtual**

- <https://www.snopud.com/.../in-our-communities/power-talks/>
- More and more people are driving electric vehicles today, but is one a good fit for you? Learn how to purchase an electric vehicle or install a charger in your home, the differences between driving an electric vehicle and a gas guzzler and more in our free August Power Talks online presentation.

# UPCOMING VIRTUAL OPERATOR TRAININGS

*For more information or an invite to this training, contact us by email at [mpmail@des.wa.gov](mailto:mpmail@des.wa.gov)*

# UPCOMING QUARTERLY ATO MEETINGS

- **Thursday November 3, 2022**
- **Thursday February 2, 2023**

# THANK YOU

## PLEASE CONTACT US IF YOU HAVE ANY QUESTIONS
