**Project Evaluation Criteria
 General Contractor/Construction Manager**

Determine that the Agency's proposed use of GC/CM on the project meets the requirements for alternative contracting procedures:

- A. Provides substantial fiscal benefit or traditional delivery method is not practical.
- B. Project meets qualifying criteria under RCW 39.10.340. Public bodies may utilize the GC/CM procedure for public works projects where at least one of the following is met: *(Pass if meets 1 of 6)*
 - 1. Implementation of the project involves complex scheduling, phasing, or coordination, or
 - 2. The project involves construction at an occupied facility which must continue to operate during construction; or
 - 3. The involvement of the GC/CM during the design stage is critical to the success of the project; or
 - 4. The project encompasses a complex or technical work environment; or
 - 5. The project requires specialized work on a building that has historic significance; or
 - 6. The project is, and the public body elects to procure the project as, a heavy civil construction project. However, no provision of this chapter pertaining to a heavy civil construction project applies unless the public body expressly elects to procure the project as a heavy civil construction project.
- C. Public Body has necessary experience or team: *(must meet all 6 to pass; 1 fail fails all)*
 - 1. Project delivery knowledge and experience
 - 2. Sufficient contract administration personnel with construction experience
 - 3. Written management plan with clear & logical lines of authority
 - 4. Necessary & appropriate funding and time to carry out the project
 - 5. Continuity of project management team with project type & scope experience
 - 6. Necessary and appropriate construction budget
- D. Public Body has resolved any audit findings relative to previous projects.
