JLARC Recommendation #3

Recommendation 3

Public bodies using GCCM should obtain information on project subcontract awards and payments and provide a final project report on their GCCM subcontracting to CPARB.

Review of selected GCCM project files shows that information to verify the limit on GCCM contractors performing subcontract work is not readily available without access to contractor project files. Although public bodies have procedures in place to ensure compliance with this requirement, the information needed to verify compliance is often dispersed and unorganized. The public bodies using GCCM should maintain a complete record of a project's subcontract awards and payments and report this information to CPARB. CPARB can provide guidance and instructions to the public bodies on how best to consistently report this information.
