

Defining Reauthorization Task Force
(Proposed)

Purpose Statement: Provide to CPARB the pros and cons of reauthorizing RCW 39.10 and potential changes to statute.

Mission:

- Assemble and maintain a list of changes to 39.10 and the status of each change.
- List existing proposed changes and indicate the next action required to accept, decline or modify.
- Determine changes that would be considered and “expansion” and refer to CPARB for possible subcommittee action
- Determine which changes or issues may be required to gain support by stakeholders, or which ones may be “deal breakers”.

This task force should be the “clearinghouse” for proposed revisions. We may also want to consider how and when this subcommittee works with or turns into the writing team.
