Seattle, WA 98121

Re: Public Body GC/CM Certification Determination

Dear Ms. Zahn:

The Capital Projects Advisory Review Board's Project Review Committee has determined that the Port of Seattle, has met the criteria established in RCW 39.10 for public body GC/CM certification. As of January 23, 2014 the Port of Seattle is authorized to utilize GC/CM contracting procedures for projects with a total project cost of ten million dollars or more for a period of three years.

The Port of Seattle certification will extend through January 22, 2017. A re- certification application will need to be submitted to the Project Review Committee at least three months prior to the above noted expiration date.

Under the terms of the law you will be required to submit project data to CPARB during any GC/CM project undertaken with this certification. Please identify your point of contact for supplying required project data information to CPARB staff person, Danelle Bessett, at Danelle.bessett@des.wa.gov

Congratulations on the approval of your application.

Please contact Robyn Hofstad at 360-407-9347 if you have any questions regarding this process.

Sincerely,

A handwritten signature in blue ink that reads "Daniel J. Chandler".

Dan Chandler, Chair
Project Review Committee
