

# PRC RE\CERT PRESENTATION QUESTIONS

– SEPTEMBER 22, 2016 –

## ***Bainbridge School District – GCCM***

1. With the competing demands for the staff of Parametrix, how will they be able to adequately support the needs of the project and the BISD team? Please show a Gantt chart or similar schedule to outline Parametrix's availability.

The primary point of contact for GC/CM Procurement for the BISD Blakely ES project, will be Dan Cody. Dan has been in a support role to Jim Dugan on all previous GC/CM applications and procurement efforts. This project will be Dan's first (and only) in the primary GC/CM Procurement role with Jim Dugan in the GC/CM Advisor role. Dan currently has up to 25% of his time available for this assignment.

The GC/CM Advisor role will be filled by Jim Dugan. Jim has up to 25% of his time available for this effort, due to prior GC/CM Procurement and Advisor roles that are now complete and one that completes on September 28, 2016.

They are as follows:

### Completed GC/CM Procurement Projects:

- Tacoma Public Schools - McCarver ES.
- Tacoma Public Schools – Stewart MS.
- Tacoma Public Schools – Browns Point ES
- Metro Parks Tacoma – Eastside Community Center
- Central Kitsap School District – Olympic HS

### GC/CM Procurement Projects – Complete on September 28, 2016:

- Central Kitsap School District – CK HS & MS

### GC/CM Procurement Project in Progress:

- Mount Vernon School District – East Division ES.

Ample capacity for the BISD BES GC/CM Advisor role.

2. Is the use of MCCM and ECCM an option for this project, and how will the BISD support its implementation?

No. We do not believe we can satisfy the \$3 M threshold due to the size of the project.
