

## THE GREENBUSCH GROUP, INC. ....)))

February 28, 2020

**Ms. Talia Baker, CPARB Administrative Staff**

Washington State Department of Enterprise Services

**RE: Letter of Interest for Project Review Committee:** Design Industry – Engineer Representative**Dear Ms. Baker and Selection Panel:**

With more than fifteen years of experience working directly with Architects, Engineers, Contractors and Owners on public agency projects in Washington State, I am very interested in participating as a member of the Project Review Committee and submit my formal application for: Design Industry Engineer. Listed below is the requested information for consideration.

**NAME/TITLE:** Adam C. Jenkins, PE, INCE Bd. Cert, Principal**COMPANY:** The Greenbusch Group, Inc.  
Firm Expertise: Acoustics/Environmental Noise & Vibration/Audio-Video Systems, Mechanical Engineering, Vertical Transportation, Commissioning**SEAT APPLYING FOR:** Design Industry Engineer**WORK ADDRESS:** 1900 W. Nickerson Street Suite 200, Seattle, WA 98119**EMAIL:** adamj@greenbusch.com**PHONE:** o: 206.378.0569 ext. 103 / c: 206.849.1259

**BACKGROUND:** As a partner and principal, I lead the Acoustical Environmental Noise & Vibration division, one of the most active and largest in the region, and the firm's Audio-Video Systems design group. As a unique, specialty disciplines Principal/Project Manager, I have been involved in all project phases: Master planning/conceptual, NEPA/SEPA, Predesign/TS&L, Design and construction and have worked with the full range of contracting methodologies, including design-build, progressive design-build, design-build-operate, GC/CM and design-bid-build.

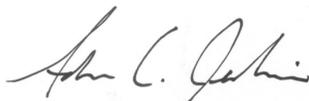

I offer the panel the unique perspective of having worked in the field for designers and general contractors and have been extensively involved in 100's of public agency projects including new and renovated K-12 schools, higher education and municipal building facilities, and transportation/transit/civic capital and infrastructure improvement projects. Owners include University of Washington, Western Washington University, Sound Transit, City of Seattle, State of Washington, and K-12 school districts including Seattle, Issaquah, Monroe, Vancouver, and Tacoma, *as examples*.

My involvement with Design-Build and GC/CM contracting includes: review and comments of GC/CM-prepared cost estimates during design; preparing technical requirements in Design-Build RFPs; responding to Design-Build RFPs as a subconsultant; working through construction noise and vibration concerns during design; and bidding to GC/CM contractors on bid packages. Example alternate procurement projects include: North Transfer Station (GC/CM, on design team); Sound Transit E335 (GC/CM, with contractor); Wilsonville WWTP (DBO, for owner); and SR99 Deep Bore Tunnel (Design-Build, with contractor). I also serve as an adjunct professor teaching an Acoustics class at Seattle Pacific University.
