MEETING PURPOSE

1. Discuss feedback provided by the Executive Work Group and Community on the May materials regarding Best Available Science related to water quality and habitat, including methods for evaluation and list of technical reports; present the revised materials to provide an opportunity for “second touch” and additional feedback.
2. Review draft Purpose and Need Statement and example statements for context.
3. Discuss identified hybrid options for future management of Capitol Lake for substantial improvement in fish & wildlife habitat and ecosystem functions, maintaining a historic reflecting pool and adaptive management strategies, per the Proviso.

Agenda subject to change.
