

Family Medical Leave Act (FMLA)

for Supervisors

A new course from Washington State
Department of Enterprise Services

Course Description:

FMLA supports a fundamental principle:

Workers should not have to choose between the job they need and their own health or the health of family members they love and who need their care.

The significance of FMLA is in its recognition that workers are not just contributing to the success of the business, but away from their jobs they are contributing to the health and well-being of their families. This course will provide you with basic information regarding FMLA.
