## General Parking Information

Permits are required for [employee and visitor](#) parking on the Capitol Campus.

### Parking Permits

Anyone who parks a vehicle on the Washington State Capitol Campus must either be a registered parker, have a valid permit, or pay a meter. All regular and special parking permits are issued by the DES Office of Parking Services upon verification of eligibility.

Parking for permit holders is issued on a first come first served basis. Possession of a permit allows for parking on campus in a designated area but does not guarantee a parking space. Parkers may have more than one vehicle registered and stickered, however, only one vehicle linked to a parker can park on campus at any given time.

Your parking permit dollars pay for parking maintenance and operations. By state statute, parking is required to be self-funded; meaning parking fees must generate sufficient revenue to pay for the costs of parking on the campus including costs for parking lot and garage maintenance. Parking does not receive funds generated from parking citations or general fund revenue to run the program.

### State Employee Visitors

State employees whose primary duty station is not on the Campus are considered visitors. You have several parking options available to you:

- Purchase an hourly or daily permit at the pay station in a visitor parking lot
- Purchase a daily or monthly permit at the DES Office of Parking Services and park in a visitor parking lot,
- Use one of your agency's reserved stalls (authorization can be obtained from your agency),

- Display an Annual/Director parking permit and park in a visitor parking lot.

### General Public Visitors

You must purchase an hourly or daily meter permit at the pay station covering the hours you are parking in a Campus Visitor Parking Lot and display the permit in your vehicle window.

### Fee Schedule

Below is a list of permit types available at the Washington State Capitol Campus along with a brief description, and any associated fees and taxes. Rates are effective from July 1, 2017 and are evaluated annually by the Department of Enterprise Services.
